Summary: Web and mobile developer with two years of experience using open source technologies to build diverse Web applications. Excels under tough deadlines and loves learning new things.

Stuff I Know:

Web/Mobile: HTML(5), CSS(3), PHP, MySQL, jQuery, JavaScript, Appcelerator Titanium, various Web service formats

Software: Adobe Photoshop, Dreamweaver and Flash CS5, OSX, Windows, Linux, Git, LAMP

Drupal: Theming (theme function overrides, template files), Site Building (Views, Rules, Services), module development (customizing contributed modules, hooks, Form API), Drupal 6 & 7

Other: WordPress, ExpressionEngine, Django, C++

Projects I've Done:

RFK Stadium 50th Anniversary
<http://rfkstadium50.com> *Drupal, jQuery*
Site to promote the 50th anniversary of DC's RFK Stadium, including Webform module-based All-Stadium Team ballot.

How is the Water?
<http://howisthewater.us> *PHP, JavaScript, Geolocation, SOAP*
Submitted as an entry to the EPA's Apps for the Environment Challenge.

La Dolce DC Mobile
<http://m.ladolcedc.org> *Drupal, JavaScript, Geolocation, Facebook & Twitter APIs*
A location-based game for smartphones to promote a local Italian festival, similar to Foursquare.

Project Oxpeck
<http://projectoxpeck.com> *Flash, Drupal, AddThis*
Flash front end creates Drupal users and saves customized image to user's profile using Services module, customized image shared for charity

Arlington Green Games
<http://arlingtongreengames.com> *Drupal*
Uses modified Quiz, Webform, and Userpoints modules to score a first-of-its-kind environmental contest in Arlington County, Virginia.
